25X1

Dear 

25X1

While I think it is a bit premature, personnel interested in eventual duty with our station on Okinawa, particularly those at Kauai, are already starting to ask many, many questions concerning the living and working conditions. I have some information which we obtained through the Ryukyus Command almost a year ago on this subject. I should think, however, that there would be a wealth of it available in an unclassified status which could be obtained and sent to us here in Washington. Incidental to your other many duties, I should like you to give this matter your attention. Any information which you can obtain should be sent with your own comments to this office as well as to Tokyo and Kauai.

According to your plan, you should have arrived at Okinawa today. I am writing you another letter in the near future concerning the various memoranda recently received from you and outlining what your activities have been since your departure from Washington.

Sincerely,

This document part of classified
integrated file. NAME CHECK required
prior to individual classification action.

L. K. White
